

## Core Goal 3

Enroll, retain & graduate students who thrive and contribute

“We will enroll, retain, and graduate students with the capacity to thrive and contribute to their community and the world.”

Jun 2024

Year 3 of 6

May 2030

### The strongest goal — well ahead across the board.

Weighted work sits at 62% against roughly 35% of the timeline elapsed — the furthest ahead of the five goals. Enrollment sustainability and freshmen-retention targets are fully in motion, and enrolling 2,030 students by 2030 is at 94%. Alumni-facing objectives are the lighter end.

### Where the 77 tasks stand

### The read

#### WORKING WELL

**Enrollment and retention are locked in.**

Enrollment sustainability, 80% freshmen retention, and sustained 70%+ retention are all fully in motion, and the flagship 'enroll 2,030 by 2030' objective is at 94%. This is the engine of the plan.

#### ON BALANCE

**62% done, 35% of the time gone.**

The most advanced of the five goals relative to the calendar. With 25 tasks operationalized and only 13% not started, the work is maturing from active into standing operations.

#### NEEDS ATTENTION

**Alumni outcomes are the lighter end.**

Young alumni engagement (67%), the 50% four-year graduation rate, and the mobility ranking (75%) trail the enrollment objectives — expected, as they mature later, but worth sequencing now.
